OBJECT T. J. FREIGHT RATES.

WAILUKU, April 16.—C. T. Green of Wailuku and W. O. Aiken of Paia have gone into the banana business rather extensively, buying the fruit from growers on the island in small lots and shipping them to the coast by the Nevanan. By the Nevanan which sailed last night Green shipped in the neighborhood of 400 bunches, while Aiken shipped almost a like amount. The only complaint on the part of these shippers is that the rate charged by the steamship company for the transportation of bananas is excessive, 40 cents per bunch being the freight rate. This new industry has encouraged small growers on the island, and it is known that quite a few are planting banana trees on a large scale. If Green and Aiken make a success of this first shipment, there is no doubt but that this will be a paying industry on the island which has come to stay. Shippers are now in communication with the steamship company with a view toward reducing the freight rate.

HARD TIMES IN WAILUKU.

WAILUKU, April 16.—During the past two weeks, three prominent stores in this town went into bankruptcy. Ah Hoy's store next to the Wailuku meat market was closed up last week. Y. Kashinoki and Wakobayashi, the two most prominent Japanese merchants were closed during this week. Owing to the dull times which have prevailed, it is claimed that these merchants were not able to meet their obligations, hence the closing of their doors. Y. Kashinoki always enjoyed a very large patronage among his countrymen, but it is said many bad debts were carried on his books.

THEY WANT OUR JACK.

WAILUKU, April 16.—The Improvement Association of Wailuku District, through its executive committee, is now taking up the matter of celebrating the laying of the corner stone of the new school building with speeches, music and parade. It is their plan to celebrate it on some Sunday, and to in-

Tin, Iron and Steel Roofing

IT CANNOT RUST.

Gases, fumes, moisture, coal soot and smoke cannot injure or effect cement roofing.

It is better adapted for application over uneven surfaces, such as old shingles or metal roofs, obviating the expense of removing the same. It will not rattle from wind and storm, nor create any noise from rain falling upon it. The materials used in cement roofing are the best non-conductors of heat and cold known, therefore it will keep the building warmer in winter and cooler in summer than a metal roof.
